VOL. 7. NO. 86.

MIAMI, FLORIDA, TUESDAY MORNING, FEBRUARY 27, 1917.

PRICE FIVE CENTS

To Protect American Citizens and American Ships From Submarine Menace

EXTRA SESSION TALK

Because Republicans and Democratic Pacifists Balk At Resolutions

Washington, Feb. 26.—President Wilson today took the inevitable step, and asked congress for authority to use the nation's armed forces to protect American citizens and American ships against the submarine menace, and to put the nation in an armed state of neutrality.

A bill was then introduced in the house empowering the president to furnish guns and gunners to American merchantmen and to employ such other instrumentalities as are necessary. and providing for a hundred million bond issue for war insurance to encourage American commerce to brave the submarine peril.

The president's action, while it was received generally with expressions of support, threatens an extra session.

Republicans supported by a few democratic pacifists are disinclined to grant a blanket authority while congress is in recess, and they want congress to NO MEETING take a hand in the next step, which they feel will lead to war.

deplore the situation, feeling that the impression will go to Germany that congress will not

SECURE

A LITTLE BIT OF EARTH AND INDEPENDENCE ON THE INGRAHAM HIGHWAY

The new Ingraham Highway is being built south to the Dade County line and will furnish a quick means of transportation from Miami to the Cape Sable section. Numerous tracts can be had with frontage on this oiled highway.

LARGE AND SMALL TRACTS

The Cape Sable lands are divided into small tracts for retail purposes, and large tracts at wholesale prices can be had for colonization and development.

A WINTER PARADISE ON THE WATER FRONT

Aside from the commercial value of these lands, there is still another feature that cannot be found anywhere else in the United States.

The greatest hunting and fishing grounds in the world are to be found in the Cape Sable section. Here are to be had wonderful home sites facing the water front, offering ideal boating l'acilities for small craft, and having a safe harbor the year round.

These are only some of the many advantages to be had in this wonderful section of Florida.

THERE ARE OTHERS. ASK US.

PACKERS AND SHIPPERS TAKE NOTICE!

WE ARE OFFERING A BIG OPPORTUNITY AT LARKINS IN 40 ACRES, JUST . NORTH OF TOWN, ON DIXIE HIGHWAY AND THE RAILROAD

This Has Railroad Trackage Right Thru and is Best Site For Large Packing House or Cannery

Adjoins subdivision already developed, in which single lots are selling at \$125 each. We are only asking \$125 per acre for this, and with packing house provided in conjunction, this tract could be divided into number of very valuable groves, netting large gains on investment. Situated at shipping point for some of finest lands given over to the cultivation of citrus products. A good rock road leads directly to this tract, which has every advantage as a big packing center. Price effective for few days only—so see us quick if you are interested.

As heretofore published in The of the story in such a way that her Herald this increase of capital stock most earnest desires for a fine pro-

mount Theatre.

The management of the Paramount It will be one of the largest summer activities this year in or about Mi- takes pleasure in announcing that they secured Miss Booth of New York to sing for "Civilization," Thos H. Ince's million dollar production, which will be presented at the Paramount Theatre Wednesday and Thursday of this week.

Miss Booth sang for "Civilization" t the Criterion theatre in New York, and as the management of the Paramount is desirous to put it on as big as New York, Chicago and all the other large cities are doing, they secured Miss Booth who has a most wonderful voice. Her singing will be an attraction in its self.

"Civilization" is the great motion picture spectacle which astonished New Yorkers last spring when presented at the Criterion Theatre, where it still remains the rage. An attempt of a verbal description of this incomparable screen success would terminate in common failure as it is beyond description. One must assuredly see it unfolded before proper appreciaion can be registered.

DIXIE HIGHWAY TRACT

To those residing permanently in Miami and to tourists here for the season

J. A. Gates & Son, have a message.

We have formulated a plan whereby we can greatly reduce the price of real estate to purchasers, cause the business of real estate to be more highly respected, and to be more enjoyable and satisfactory to those engaged in the

We purpose to sell lots in a tract by employing hired salesmen just as a merchant sells goods in his store by clerks in his employ. Parties visiting our Dixie Highway Tract, now being offered, will be shown over the tract by our salesmen. A tag bearing the lot and block number and price of lot is attached to a stake placed in front of each lot, to be detached by purchaser and presented at office of tract owner, where papers in settlement will be

We can, we believe, by this method save purchaser 25 per cent or more and complete the transaction most expediciously and satisfactorily.

We especially call attention to location of our Dixie Highway Tract. It adjoins the Charles Deering place on the north and extends from Dixie Highway to Bay View Ave., overlooking the Bay. All inside lots are held at a uniform price of \$195 each, corners \$300. If in this connection you note the fact that lots in Flander's tract which adjoins the Charles Deering place on the south are held at prices ranging from about \$3,000 to \$5,000, and are on lower land; you will readily see that lots in Dixie Highway will certainly appreciate rapidly in value with the growth of Miami and that you will make no mistake in buying now. Is it unreasonable to expect an advance of one hundred per cent in values within one year. May we not urge those of our home people thinking to secure a lot while cheap in price and most attractively located to select now. May we not urge tourists seeking a place for building a winter home to visit us; and may we not especially urge builders who want to get a bunch of lots on which to build houses to sell or rent to select now while the selecting is good—the bunches are unbroken. Dixie Highway Tract has many advantages, such as electric lights, telephones, jitney busses about half hourly, ice, meat, groceries delivered daily, daily mail delivery, high school, churches, literary clubs, fraternities, and other advantages of a happy and cultured community.

THE BIG WAY IS THE PROFITABLE WAY OF DOING THINGS AND THE GREATER FLORIDA IS BEING DEVELOPED THAT WAY

Not only do great economies result from doing big things in a big way, but there is the compensation of success that does not exist in attempting to do the big thing in a small way.

When The Southern Cattle Feeding Company went into its 60,000-acre ranch near Green Cove Springs, Fla., it cleared 3,000 acres in four months and erected 175 miles of hog-proof wire fence. There was employed the sane, sound policy that won profits for the big industrial enterprises of the country.

To plow this 3,000 acres quickly required the operation of caterpillar tractor plows day and night but this was not a big problem to big men who were doing a big thing in a big way. Competent experts said it would take a MILLION DOLLARS to carry out the plans, and the MILLION was forthcoming. To have spent a quarter million on the same proposition would have been to endanger the quarter million and reduce the profits.

You ought to see what the MILLION DOLLARS has done. You will see the biggest corn field you ever laid your eyes on and fat cattle and 600 men working under the 1917 budget. You have heard that word before—used by efficiency experts—production and the operation by budget straight through the year. One of the biggest banking houses in the North financed this great cattle and hog ranch, and it did this only after expert investigation.

The Agricultural Securities Company offers its customers the opportunity to share in the profits of the tremendous development now going on in the cattle and hog industry of Florida. TO BE SURE you must have your money invested in the RIGHT land operated by the RIGHT people and supervised by experts. Send for our booklet today while you are in Florida. Let us show you the big business side of Florida.

What the Germans Have To Eat

Facts and figures about food conditions in Germany illustrated in this lrawing were taken from the report of a thorough investigation by a corespondent of the Associated Press. The German breakfast ration, conrolled by the government, consists of two rolls, some marmalade (usually made from pumpkins) and a mixture of roasted grains and chicory, which goes under the name of coffee. The mid-day dinner consists of boiled potatoes and some vegetables, usually turnips. The supper consists of bread and smoked herring, but the herring is not permitted every day. These diets are varied with eggs, one egg being permitted every two weeks for a time, and meat, which is permitted occasionally. The prices of meats, poultry and fish are very high.

FINANCIAL NEWS

Furnished The Herald Daily By Clement D. of the old need is a gentle and nat- less children in childless homes. One that can be constant-Cates & Co., Jacksonville and Miami

New York, Feb. 26.—Summary: Pending general legislation expected to fail at this session of Congress, extra session doubtful. Reports to department agriculture show that total acreage under cultivation has reached new high mark and bumper crops predicted. United States Industrial Alcohol for year ended December 31, 1916 earned 36.13% on common stock against 6 in 1915. Germany takes steps to avoid clash with Holland over sink ing of Dutch ships; Berlin puts blame on Dutch ship owners. President Wilson hesitates about going before congress again; extreme confusion exists | at the capital. Standard Oil company withdrawing its representatives from European and Asiatic Turkey, owing to impossibility of transacting business within boundaries. New Mexican decrees provides for decided increases in export duties on crude oil and its products. Railroad brotherhoods threaten "aggressive action" unless supreme court hands down its decision on the Adamson law by March 5th. Average price twenty industrials 92.22, off .34;

Cotton: Liverpool due 3½ higher on March and ½ to 4 lower on others; market opened firm at 8 to 10 advance. At mid-day the market was steady at a net advance of 11 to 14 points. Spot cotton in fair demand at 3 points advance. Middling upland 11.36d. Sales 6,000. On this basis New York is due to open as follows: March 16.46; May 16.57; July 16.67; October 16.27. Weather: Rain fell in the South Atlantic states yesterday. The indications are for unsettled weather over the eastern half of the country today nd tomorrow with rain today or tonight in most sections, probably continu-

Tuesday in the east Gulf and South Atlantic states Car Lots: Wheat 18; 1; 18; 143. Corn 153; 6; 153; 99. Oats 95; 34; 95; Coast League has agreed to give a of course very important. Mr. Fagg 183. Stock Yards Report: Hogs 63,000. Left over 3,000; prospects 5c lower; top price 12.95. Cattle 15,000, 10c to 15c higher. Sheep 18,000, strong.

Stock Letter: From the annual report, Industrial Alcohol earned about school. he same amount as Central Leather and is selling 45 points higher and payng no dividends. What keeps Industrial Alcohol up is the short interest. A higher export duty is believed to be put on Mexican oils. It seems very cessions. Saturday's market was the narrowest seen in many years and it by the Detroit club. will continue this way until Washington gives us the lead. Hutton.

Cotton Letter: Cables much better than due. More rain in eastern 2,500 ft.)-real living. A re- states and unsettled weather expected today and tomorrow. Southwest temsort hotel worth knowing, peratures unusually high for this time of the year. New York warehouse Steam heated rooms. Special stock decreasing fast. They are now 127,000 vs. 214,000 a year ago. Barring training camp Feb. 28. Walter, the most necessary part of any such work unforeseen developments, cotton looks gradually higher. Ettelson.

Grain Letter: Wheat-Bears claim that prevailing values will reduce service. Stop over on your way consumption of wheat, estimates running as high as thirty million in the states alone. On this point it must be remembered that bread is in reality have to worry along without the sertice of all foods. It would seem therefore the consumption would vices of Sherwood Magee this season. ful watching and preparing legislathe cheapest of all foods. It would seem therefore the consumption would be larger than normal. All theoris aside, it is a fact that cash wheat in The slugging outfielder refused to tion which will, as far as legislation all markets is increasing its premium over the futures. The trade is at sea, market plainly showing need of something definite to get it out of a rut. port on farm reserves due on March 8th is awaited with interest, esti-tes 109,000,000 to 125,000,000.

Superintendent Fagg Tells Large Miami Audience How Children Are Helped

Immediately following the tourist class in the Royal Palm park Sunday morning, Mr. Marcus Fagg Most old people must give to the spoke for a brief twenty minutes on bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just Jacksonville, of which he is super-

active as youth. The muscles are less elastic. And the bowels are with much interest and keen atten-

portant at all ages, but never so Mr. ragg spoke simply and direct-Mr. Fagg spoke simply and direct-Age is not a time for harsh physics. which the work of the children's

bowels into activity. But a lash can't The first, and one of the most imbe used every day. What the bowels portant branches of the work, Mr. y used without harm. The only such Since the ideal of the family is the onic is Cascarets, and they cost only basis of our civilization, institutions 10 cents per box at any drug store. in which children are c coped and homes with no children cannot be the best thing in the end. Mr. Fagg felt that the child placing was the part of his work which bore more direct fruit than almost any other. Another important phase of the The New York Yankees have sign- problem is that of keeping mothers time has long gone by when it was thought that an institution can ever The children's home never urges the
